

[TACTILE] SHOWCASES ELO TOUCH SCREEN TECHNOLOGY & CELLULAR DIGITAL SIGNAGE AT FUTUREX & EQUIP 2007

MAY 2007

Diarize now: Tactile Technologies will exhibit at the ICTE FUTUREX & EQUIP trade show which will take place at the Sandton Convention Centre from 15 to 18 May.

We will be displaying the latest Elo desktop- and kiosk touch monitors. Also on display Elo touch computers and large size touch monitors. We have good news again for all visitors as again our Tactile Communication Booth (touch enabled obviously) will be available for you on our stand **F15** to make those expensive international calls...on our expense!

A first for Africa will be the introduction of Elo's latest touch technology Acoustic Pulse Recognition which in time will replace today's leading touch technologies.

Another first for Africa will be the introduction of the MediaTile cellular signage technology, you will be amazed by the functionality and benefits of this brand new product.

If you would like to schedule a meeting with Tactile Technologies, please reply via e-mail and we'll be in touch shortly. You can pre-register as a visitor on www.futurex.co.za.

Futurex and Equip are the leading annual business-to-business ICTE (Information & Communications Technology and Electronics) events in South Africa.

In 2007, the two shows are collocated once gain, to provide a comprehensive showcase of products, services and solutions for big business (the Futurex component) and to showcase and retail the latest equipment, technologies, solutions and services available to SMEs and home-based businesses (the Equip component). Combined, these two shows cater to the ICT requirements of just about every business in Africa, whatever the size, emerging or established.

For more info on products exhibited, please email us on info@tactiletech.co.za
