

19" Digital-Sign-in-a-Box™

The MediaTile 19" Digital-Sign-in-a-Box system includes everything you need to deploy and operate a digital signage broadcast network, or network of touchscreen kiosks, right out of the box. Just add power!

Just Add Power!
to your Brands
to your Programs
to your Messages
to your Bottom Line

MediaTile's Breakthrough Digital-Sign-in-a-Box

MediaTile's 19" Digital-Sign-in-a-Box integrates everything you need to deploy and manage your very own advertising, educational or promotional broadcast network, or a network of interactive kiosks, quickly and easily. This 19" wide-screen system is ideal for environments where users are in close proximity to the screen or the available space for signage is severely limited. The 19" Digital-Sign-in-a-Box system includes:

- Commercial grade, high-definition LCD display with optional touch screen
- Embedded fanless computer fully configured with media player software
- Built-in internet connection with LAN, 3G cellular-broadband or Wi-Fi support
- Web-based portal for complete control over your Digital-Sign-in-a-Box

MediaTile Features

- All-in-one integrated system
- Built-in networking support
- Stereo speakers
- Multi-zone playlist capability
- Support for popular media types
- Dynamic RSS / Flash support
- Centralized Web-based control
- Remote monitoring/maintenance
- Advanced security features
- Audit logs of files played
- Automatic software updates

MediaTile Advantages

- Quick and easy deployment; just add power
- Easy to use and operate; no intensive training required
- No software to install, license, manage or update
- High reliability with a 99.9% uptime guarantee
- Future-proof operation with automated, no-charge updates
- No on-site IT, no cabling, no setup; no headaches
- Scales with your needs
